Robert Louis Bostick

CUSTOMER SERVICE LEADER OF 15 YEARS — BUILDING CYBERSECURITY TOOLS & TRAINING FOR SOC WORK

Hillsboro, TX | 254-479-3842 | memoryofpriscilla@gmail.com | github.com/Rionangelfire

Portfolio: rionangelfire.github.io/cybersecurity-portfolio
GitHub: github.com/Rionangelfire
LinkedIn: linkedin.com/in/robert-bostick-1938a0362

SUMMARY

Department-level leader from 15 years at McDonald's — hiring, training, and leading crew, running operations, and serving guests bilingually — now completing a B.S. in Computer Science (cybersecurity focus) at CTU Online and building working security tools in public on GitHub. Looking for a junior technical role where reliability, clear communication, and steady learning matter.

STRENGTHS

Customer service & sales • Team leadership & training • Bilingual guest service (English fluent; Spanish intermediate, workplace-conversational) • Python, JavaScript, HTML/CSS, SQL, JSON • GitHub • Wireshark (cybersecurity lab use) • Typing 80 WPM • Dedicated home workspace, can hardwire to router

PROJECTS — GITHUB.COM/RIONANGELFIRE

One-page portfolio: rionangelfire.github.io/cybersecurity-portfolio

- **Aegis Shield v2.3** — SOC simulation platform: a Python telemetry engine streaming MITRE-tagged security events over Server-Sent Events (8 threat profiles, structured metadata) to a browser SOC console; plus a Packet Analyzer detecting brute force, WinRM, SMB/RDP, DNS tunneling, and entropy spikes. Synthetic data, local simulation.
- **Echp** — Gemini-powered AI simulator with tactical missions, plus a Python IOC monitor (UDP syslog listener matching IPs, domains, and hashes; JSON alert log and email alerts).
- **Codex of Echoes** — Python/SQLite/JSON archive with a tamper-evident hash chain (v1 + hardened v2) and a single-file viewer. Three browser games also live on GitHub Pages.

EXPERIENCE

McDonald's — Certified Department Manager Hillsboro, TX | Jan 2022 – Dec 2025

Department-level leadership (not shift-leader scope)

- Led and trained crew; hired and onboarded new team members.
- 4 years as Operations Technology Person (OTP 1 & 2) — certified on KVS controllers, kiosk systems, and Eternity POS; wiring and hardware support.
- Held ServSafe Manager responsibility.

CB Radio Antenna Manufacturing Assembly Fort Worth, TX | Jun – Aug 2006

- Built CB radio antennas to specification; ran the manufacturing machine and tester (about 400 units a day).

EDUCATION

CTU Online — B.S. Computer Science, cybersecurity focus (in progress, junior; 123 of 183 credits; expected graduation June 2028). Coursework includes ethical hacking, penetration testing, threat detection, and cryptology. Also holds a high school diploma.

CERTIFICATIONS

- CompTIA Network+ (In Progress)
- ServSafe Food Protection Manager — examined 12/20/2022, expires 12/20/2027
- McDonald's Operations Technology Person OTP1 (11/18/2022) & OTP2 (12/19/2022); Certified Department Manager
- Hamburger University (McDonald's) — 40+ course completions, 2021–2023, incl. Virtual Leadership Transitions v3, Department Leader Profit, Managing with Digital Metrics
